

CPSC eFiling Readiness Prep List

Are You Taking the Right Steps to Prepare for CPSC eFiling?

Use this list of questions to evaluate your readiness and identify what to prepare, when to act, and how to stay aligned with CPSC eFiling requirements.

- ☐ Are your internal teams aligned on eFiling (Product, Quality, Compliance, Legal, IT, Sourcing)?
- ☐ Have you mapped your current CoC creation process and identified changes needed to implement eFiling?
- ☐ Have you created a CPSC Product Registry Business Account and entered data to learn the system?
- ☐ Have you identified and mapped the data needed for eFiling?
- ☐ Have you defined how you will assign and track Product IDs and Version IDs internally and within the Product Registry?
- ☐ Are you tracking product or sourcing changes that might trigger a version update in the Product Registry?
- ☐ Have you determined whether you will use the Full PGA or Reference PGA submission method?
- ☐ Do you have a plan to automate or streamline data entry (bulk upload, API)?
- ☐ Have you or your service provider worked with the CPSC API for automated eFiling?
- ☐ Is your broker ready to submit Certificate Identifiers via the ACE system?

Key Dates & Deadlines for CPSC eFiling
